Exceptional Return Policy

Just like all our “Terms of Sale” our return policy is simple, easy to read and fair. As the original nationwide lighting distributor, we know the ability to purchase without risk is paramount to success. That’s why we developed the “No Ulcer Policy”. For all purchases of stock products from CLL this is a unique purchasing guarantee that gives you, as the contractor, a worry free experience. We ask you to purchase items right from the catalog, sometimes without ever physically holding the product before. Although, what we’re not asking you to do is take all the risk, we’ll share that. When you purchase any stock product shown in the CLL Catalog you have the ability to return that item for any reason up to 30 days.

There’s no questions asked and it doesn’t matter whether it is new or been used, we’ll take it back. Better yet, if you don’t find something else you want to replace the returned product with, you get your money back. There’s no “Store Credit” policy here, if we can’t fill your need, we don’t keep your money. The “No Ulcer Policy” is just one of the reasons contractors across the country purchase from CLL. Check out our complete “Terms of Sale” under the “about us” tab on the upper tool bar on the CLL website for more information.

King Innovations Chart

King Innovations offers the Dryconn Black Series water proof connectors. We stock the black/white, black/gray and the black/blue connections for use with any low voltage landscape lighting system. Please refer to the website under the “downloads” tab to see the King wire connector combinations.

Nothing says Happy Valentine’s Day like an LED Retro-fit light! Buy yours today!
